

OFFICE EQUIPMENT: MONO

Networked and standalone black and white printing focusing on speed, user friendliness and productivity.

Maximum Paper Size: A4/A3
B&W Print: 27 PPM
Resolution: 600 x 600 dpi

IM 2701

The RICOH M 2701 comes with improved functionalities that make it more productive, convenient to connect, and easier to maintain. Some of the main features include a faster 27 pages per minute (ppm) print speed, 512 MB memory, and a 500-sheet standard paper tray, which enable the devices to handle larger and more complex print jobs in a shorter amount of time.

- Faster printing speeds of up to 27 ppm for single-sided prints
- Maximum 1,600-sheet paper input capacity enables longer uninterrupted printing
- Easily connect and print with AirPrint™ and Mopria support for iOS and Android smart device users
- Devices can be shared wirelessly on any network via wireless LAN option
- Minimal technical support required at device setup as network card and platen cover are preinstalled

Maximum Paper Size: A4/A3
B&W Print: 27 PPM
Resolution: 600 x 600 dpi

IM 2701

Designed for use in demanding environments, the IM 2702 delivers robust performance with minimal support. Localisation is easy as the MFP supports a variety of languages, including Arabic. And, with pre-set developer and a user replaceable photo conductor unit, it can easily be installed and maintained by local staff. What is more, to ensure a fast return on the initial cost, the MFP's smart energy saving features and high yield toner cartridges reduce running costs.

- Fast 27 ppm print speed
- High capacity ARDF
- A6 to A3 paper formats
- 1600 sheet max capacity

Maximum Paper Size: A4
B&W Print: 37 PPM
Resolution: 1,200 x 1,200 dpi

IM 370 / IM 370F

Experience the versatility of the IM 370 and IM 370F devices — each a perfect addition to today's modern workplace. Ideal for smaller office workspaces or desktop environments, these devices offer space-saving efficiency and low noise levels. Empower your teams to digitize workflows and easily capture, print and share information. Work more efficiently with fast black-and-white print and color scan speeds. Protect your business data and intellectual property. Customize options to match your workflow needs with RICOH Smart Integration technology.

- Print, copy, scan and fax capabilities
- 7" Smart Operation Panel
- 50-Sheet Single Pass Document Feeder
- 500-Sheet Paper Tray (on the IM 460FTL, this standard feature is a lock and label enabled paper tray)
- 100-Sheet Bypass Tray with A3 capability
- Automatic duplexing
- 64 GB storage
- 6 GB RAM
- PostScript Emulation
- PDF Direct Print Emulation

Maximum Paper Size: A4
B&W Print: 37 PPM
Resolution: 1,200 x 1,200 dpi

IM 460F

Experience the versatility of the IM 460F device — each a perfect addition to today's modern workplace. Ideal for smaller office workspaces or desktop environments, these devices offer space-saving efficiency and low noise levels. Empower your teams to digitize workflows and easily capture, print and share information. Work more efficiently with fast black-and-white print and color scan speeds. Protect your business data and intellectual property. Customize options to match your workflow needs with RICOH Smart Integration technology.

- Print, copy, scan and fax capabilities
- 7" Smart Operation Panel
- 50-Sheet Single Pass Document Feeder
- 500-Sheet Paper Tray (on the IM 460FTL, this standard feature is a lock and label enabled paper tray)
- 100-Sheet Bypass Tray with A3 capability
- Automatic duplexing
- 64 GB storage
- 6 GB RAM
- PostScript Emulation
- PDF Direct Print Emulation

Maximum Paper Size: A3
B&W Print: 25, 30, 35 PPM
Resolution: 1,200 dpi print, 600 dpi copy,
600 dpi scan

IM 2500(A) / IM 3000(A) / IM 3500(A)

The IM 2500/IM 3000/IM 3500 black-and-white multifunction printers are ideal for organizations of all sizes across multiple industries. These powerful A3 systems are designed to effortlessly boost office productivity. Access new applications, features and upgrades whenever you need them. Work your way with a wide range of finishing options ranging from an internal finisher to a booklet finisher. Scan between 120 and 240 impressions per minute in B&W and colour. Prevent your data and printing from being compromised with multi-layered security features that risk-proof document management. These intelligent multifunction devices deliver consistent results whatever your printing or scanning requirements may be.

- Always Current Technology provides everybody with access to applications, the latest features and upgrades
- Ricoh's Smart Integration Platform provides cloud-based apps and document workflow integration across multiple devices
- The intuitive Smart Operation Panel makes using the devices quick and easy and workflows more intuitive
- Ricoh's Smart Device Connector enables touchless operation on the MFP that takes place via a single app which enables you to control all print, copy, scan and fax functions from Android and iOS devices smartly and safely
- The combination of high scanning speeds and a variety of finishing options enables users to effortlessly boost their printing and scanning output

Maximum Paper Size: A3
B&W Print: 40, 50, 60 PPM
Resolution: 1,200 dpi print, 600 dpi copy,
600 dpi scan

IM 4000(A) / IM 5000(A) / IM 6000(A)

The IM 4000/IM 5000/IM 6000 black-and-white multifunction printers are ideal for organizations of all sizes across multiple industries. These powerful A3 systems are designed to effortlessly boost office productivity. Access new applications, features and upgrades whenever you need them. Work your way with a wide range of finishing options ranging from an internal finisher to a booklet finisher. Scan between 120 and 240 impressions per minute in B&W and color. Prevent your data and printing from being compromised with multi-layered security features that risk-proof document management. These intelligent multifunction devices deliver consistent results whatever your printing or scanning requirements may be.

- Always Current Technology provides everybody with access to applications, the latest features and upgrades
- Ricoh's Smart Integration Platform provides cloud-based apps and document workflow integration across multiple devices
- The intuitive Smart Operation Panel makes using the devices quick and easy and workflows more intuitive
- Ricoh's Smart Device Connector enables touchless operation on the MFP that takes place via a single app which enables you to control all print, copy, scan and fax functions from Android and iOS devices smartly and safely
- The combination of high scanning speeds and a variety of finishing options enables users to effortlessly boost their printing and scanning output

Maximum Paper Size: A4/A3
B&W Print: 70, 80, 90 PPM
Resolution: 1,200 x 1,200 dpi

IM 7000 / IM 8000 / IM 9000

The IM 7000/IM 8000/IM 9000 high-speed multifunctional printers have taken black-and-white printing to a whole new level. Download and install new features, applications and upgrades whenever you need them. Use the Smart Operation Panel to effortlessly customize, manage and add new features. Scan up to 240 impressions per minute in black and white and colour (duplex). Prevent data and printing from being compromised with multi-layered security features. Connect remotely, smartly and safely, from anywhere, at any time. Take advantage of finishing options, including multi-folding, stapling and booklet making.

- Prints up to 70/80/90 ppm, copy, scan, fax (optional)
- 1200 x 1200 dpi max print resolution
- Enhance efficiency with on-demand apps and intelligent support
- Upgrade as you go with dynamic add-on capabilities

OFFICE EQUIPMENT: COLOUR

Networked and standalone devices and document solutions for high quality, cost-conscious colour printing.

Maximum Paper Size: A4
 B&W Print: 30, 40 PPM
 Resolution: 1,200 dpi print, 600 dpi copy, 600 dpi scan

IM C300 / IM C300F / IM C400F / IM C400SRF

With the IM C300/400 multifunction printer, you can download the latest features, upgrades and applications as you need them, to ensure the printer is always up-to-date and ready to meet your business needs — now and in the future. The 10.1" Smart Operation Panel provides a user-friendly interface that is consistent across multiple devices — once you've learned to use one device, you can use them all. This "Intelligent MFP" also has the ability to connect to cloud-based solutions and integrate with existing software investments. Plus, with eco-friendly features and security options, you can uphold your commitment to the environment and ensure your data and document integrity stay protected.

- High capacity Single Pass Document Feeder (SPDF)
- 2,000-sheet, 3-tray auto-switching paper supply (option)
- Super-sized 10.1 inch Smart Operation Panel
- RICOH Always Current Technology keeps the device up to date
- Web help and Remote Connect reduce downtime
- High capacity Single Pass Document Feeder (SPDF)
- Integrated fax facility
- 2,300-sheet, 3-tray auto-switching paper supply (option)
- Super-sized 10.1 inch Smart Operation Panel
- RICOH Always Current Technology keeps the device up to date
- Web help and Remote Connect reduce downtime

Maximum Paper Size: A3
 B&W & Colour Print: 20 PPM
 Resolution: 1,200 dpi print, 600 dpi copy, 600 dpi scan

M C2000

From printing and scanning to email distribution, the MC 2000 will streamline your digital workflows. High resolution colour is delivered at speed, and when larger formats are required, the MC 2000 can print onto A3 paper. The ARDF automates time-consuming processes and using the smart ID Card Copy and ID Card Scan features, it is easy to record critical information. Keeping a lid on business expenditure, the MC 2000 is easily affordable and offers low running costs.

- A3 multifunctional printer meets all user needs
- Hybrid workers can easily connect to the device
- Print, copy and scan to email in full colour
- Colour touchscreen display simplifies operation
- ARDF automatically processes double-sided documents
- Smart ID Card Copy and Scan features save time

Maximum Paper Size: A4/A3
B&W Print: 20 - 60 PPM
Resolution: 600 x 600 dpi

Metis MF4 units IM C2010 / IM C6010

Ricoh has intelligently created a range of Office Print solutions that constantly stay ahead of today's workplace requirements, ensuring that our customers' investment is protected and their needs are always met. These new, intelligent devices are based on the principle of scalable intelligence. Through software and the cloud, your MFP can be updated, customised and upgraded remotely, in line with your changing needs. Our solutions are designed to be flexible, scalable and tailorable to the changing circumstances our customers face, whether that's because of developments inside their own organisations or as the outside world moves on. And unlike most other MFP's on the market, Ricoh's intelligent devices mean an investment in today's equipment is also an investment in the future. This e-book will help you make informed choices about the kind of MFP you want, and ultimately unlock freedom in your organisation.

- The easy-to-use 10.1" Smart Operation Panel with touch screen controls has improved responsiveness and large new look icons
- Settings can be configured to suit each individual user's needs and with easier mobile connectivity, users can print or scan to the office network or cloud from their smart device, with built-in support for NFC, AirPrint* or Mopria
- Easy installation and set up

Maximum Paper Size: A4/A3
B&W Print: 65 - 80 PPM
Resolution: 600 x 600 dpi

IM C6500 / IM C8000

We understand that imaging requirements change over time. The RICOH IM C6500/8000 is designed to support your current and your future business needs. Connected, easy to use and incredibly productive, it effortlessly meets demanding departmental requirements. Stunning high-quality print is delivered at express speed and can be punched, stapled, folded and bound in-line. And, with RICOH Always Current Technology™ now standard, new applications can be installed as your business needs change.

- This department powerhouse will meet a variety of business needs
- Everyday requirements are met in stunning quality at production pace
- High quality brochures and mailing pieces can be produced in-house
- Critical documents can be digitised and uploaded directly to the Cloud
- Mobile workers can interact seamlessly with the intelligent device
- Production work can be folded, stapled, punched and bound in-line New features and applications can be installed as requirements change

PRINTERS: MONO

From small office to centralised production environment, there are affordable Ricoh solutions enhancing black and white printing productivity.

Maximum Paper Size: A4
B&W Print: 45 PPM
Resolution: 1,200 x 1,200 dpi

P 501 / P 502

To get the most out of your documents and data you need a device that enables efficient, simple and secure document management. A device that meets your business needs, from outstanding print output to seamless connectivity. And for that, you can rely on the Ricoh P 501/P 502 black-and-white printers. With these Value Devices you can print with outstanding reliability, sustainability and productivity.

- Powerful Intel 1.3 GHz processor quickly processes work
- Eliminating bottlenecks, first print is ready in 5 seconds
- Multi-page document sets are produced at 43 ppm
- With WiFi Direct, there is no need to join a network
- Password protect and lock confidential documents
- Platform supports workflow and security solutions

Maximum Paper Size: A4
B&W Print: 60 PPM
Resolution: 1,200 x 1,200 dpi

P 800 / P 801

Eliminating bottlenecks, the P 800/P801 delivers its first 1,200 dpi print in just 2.4 seconds. Its advanced Intel-powered controller effortlessly processes complex PCL and PostScript files and facilitates the use of enterprise workflow solutions, such as Streamline NX. Indeed, with Near Field Communication (NFC) a standard feature, secure authentication is as easy as tap and go. And, what is more, the energy efficient printer meets stringent Blue Angel Mark (BAM) environmental, health and safety standards.

- Robust and productive 55 ppm mono A4 printer
- Compact solution requires minimal space
- Advanced controller supports enterprise software
- Lock print and secure tap and go authentication
- 2,600-sheet, 5-tray auto-switching paper supply (option)
- 25k high yield toner and maintenance free until 500k
- Energy efficient printer meets BAM environmental standards

Maximum Paper Size: A3
B&W Print: 60 PPM
Resolution: 1,200 x 1,200 dpi

SP 8400DN

When you need a robust, high-performance solution, the Ricoh SP 8400DN is here to transform your workflow. Printing the first page in just 2.2 seconds, this A3 60ppm B & W printer with multiple finishing options is perfect if your daily business does not allow you to wait for your print output. Experience the difference with the SP 8400DN, our first black and white printer with a Smart Operation Panel, a tablet like 10.1-inch interface that's built to boost your productivity.

- At 60ppm, speed meets reliability in a durable design built for constant use
- Easy to operate using the intuitive 10.1-inch touchscreen Smart Operation Panel
- Powerful controller provides full speed printing of even the most complex jobs
- Versatile and compact with multiple finishing options in a small footprint printer
- Environmentally friendly with lowest TEC value in its class

OFFICE EQUIPMENT: COLOUR PRINTER

Colour printers with multifunctional capability.

Maximum Paper Size: A4
 B&W & Colour Print: 42 PPM
 Resolution: 1,200 x 1,200 dpi

P C600

The P C600 is ideal for mid-size businesses and large corporate workgroups looking for outstanding reliability, sustainability and productivity. This incredibly low price per page device offers dynamic b&w and color output at up to 1200 x 1200 dpi resolution across a variety of media options. With its fast output speeds of up to 42-ppm, impressive paper handling ability and eco-friendly features, users are ready to impress and deliver important information at a moments notice. Users also benefit from a wide range of security options that will help keep their information protected.

- Compact and quietly efficient, the P C600 can be placed within arms' reach
- Its backlit LCD panel tilts so that essential information is easily viewed
- Eliminating bottlenecks, the first 1200 dpi print is ready in 7 seconds
- With up to 4 paper trays, letterhead paper and labels can be held on line
- Ricoh's Smart Device Connector app connects NFC enabled devices
- Improving access, the printer supports AirPrint and Google Cloud Print
- The printer's long-life drum and low TEC rating reduce waste and cost

Maximum Paper Size: A4/A3
 B&W Print: 45 - 60 PPM
 Resolution: 1,200 x 1,200 dpi

SP C840

Faster colour processing and best-in-class finishing options are only the start of the benefits. In fact, our latest A3 colour line-up can help you do more than ever. The SP C840DN device feature a 1,200 x 1,200 dpi image quality, 45ppm and 60ppm speeds and offer new ways to exceed your needs. And because they feature our Smart Operation Panel, you can preview jobs on the 10.1-inch screen and do much more in-house, so you can offer your business and customers a seamless, high quality colour experience.

- The first A3 colour printer with our Smart Operation Panel
- Faster processing of high data-volume colour print jobs
- Huge range of finishing options for professional, in-house output
- Highest standard paper-capacity in its class: 1,200 sheets
- Robust, reliable and low Total Cost of Ownership

OFFICE EQUIPMENT: WIDE FORMAT

Ricoh presents a complete line-up of productive wide format, multi-function document centres that offer scanning, and copier options with finishing capabilities.

B&W Print: 6.7 PPM
Resolution: 600 x 600 dpi

MP W6700SP

The ultimate light mono printer for low and mid-range users. Want high-speed output, high resolution and high reliability? Then this new digital multi-function monochrome printer has been created for you. The one device enables you to print, copy and scan in colour. You can also archive to improve document security and storage plus quickly and easily retrieve archived documents.

- High-speed monochrome printing at 6.7 pages/minute (A1 horizontal)
- Scan to Media and Media to print with features integrated in the one machine
- The new USB/SD slot allows data to be directly saved – no PC required
- The smallest footprint, compact in design and operation

B&W Print: 10 PPM
Resolution: 600 x 600 dpi

MP W7100SP

The Ricoh Aficio MP W7100 allows for fast printing even as you capture, share and save all of your day-to-day hard-copy document processes—co or markups, edits, penciled-in changes and asbuilts—into your ever-changing project workflow. The Ricoh Aficio MP W7100 Wide Format Digital Imaging Systems are truly high productivity tools that can help you work smarter, collaborate easier, share faster and finish your projects on-time and on-budget.

- Color LCD touch-panel interface makes walk-up operation easy and intuitive
- Built-in color scanner captures color markups in-house
- Original output tray holds up to 50 D-size originals for minimal interruptions when making copies
- Minimize system footprint with the embedded color scan

B&W Print: 3.8 PPM
Colour Print: 2.1 PPM
Resolution: 600 x 600 dpi

IM CW2200

Designed to meet the needs of today's businesses where working with CAD drawings and other large documents (A1/A0) is key, the RICOH IM CW2200 offers the perfect solution. High quality, precision documents such as site plans, technical drawings and design graphics, are effortlessly scanned and printed at impressive speeds. Ricoh's innovative GEL-Jet™ technology ensures our inks are both UV and water resistant, so your documents not only retain their colour and clarity, but are waterproof when working outdoors too. Taking large format printing to a new level.

- Fast scanning speeds - up to 35.3mm/s for colour and up to 106.7mm/s for mono documents
- Automatic paper roll setting - no need to hand feed the paper
- Impressive continuous printing – print documents up to 33 metres long
- Enhanced stacking capacity - up to 10 original sheets

B&W Print: 3.8 PPM
Colour Print: 2.1 PPM
Resolution: 600 x 600 dpi

IP CW2200

Enhance your productivity with Ricoh's new wide format printer. Designed to deliver impressive results at high speed, the RICOH IP CW2200 is the latest addition to Ricoh's wide format printer range and offers consistent quality, durability and performance for busy project teams working with technical drawings, design graphics or other A1/A0 documents. Combined with Ricoh's innovative GEL-Jet™ technology, your printed documents not only retain their colour and clarity, thanks to our UV and water-resistant inks, but are waterproof too, so are perfect when working on outdoor projects.

- Easy to use large format printer.
- High monochrome print speeds of up to 3.8ppm/A1
- Automatic paper roll setting - no need to hand feed the paper.
- Impressive continuous printing – print documents up to 33 metres long
- Useful flat top offering workable surface

UV FLATBED PRINTER

Pro TF 6251 / R to R

Up to 116m²/h: Productivity has never been more affordable. The ideal printing solution for media versatility and application potential. Tap into the profitable sign and graphics market by producing products fast and efficiently on substrates up to 11cm thick with the RICOH Pro TF 6251 / R to R UV flatbed printer. Developed by Ricoh, the RICOH Pro TF 6251 / R to R is the ideal solution to boost productivity* and diversify applications beyond traditional signage. Capitalise on emerging markets, including short run packaging, promotional products, and industrial and interior decor. Achieve industry-leading productivity and pursue ambitious growth plans fuelled by high profit potential, low operating costs, superb image quality and exceptional reliability.

- Capacity for up to 110mm media thickness
- Up to 100m²/h in high productivity 4C configuration
- Integrated vacuum table with pin registration
- Specially designed end guards have sensors for operational safety
- Highly reliable Ricoh print heads
- Energy saving LED lamps
- Newly developed UV ink
- Front access to maximise operator productivity
- Devices can be shared wirelessly on any network via wireless LAN option
- Minimal technical support required at device setup as network card and platen cover are preinstalled

Value - added printing: With two different ink sets to choose from you can select the ideal ink type for your application, media and usage needs.

RICOH Pro UV Ink GP120: Superior Color Gamut ink (Graphics)

RICOH Pro UV Ink DG130: Versatile ink for high adhesion and wide Color Gamut ink. Mandatory for Roll2Roll option Gp inks.

Pro™ T7210

The new Ricoh Pro™ T7210 UV flatbed is the ideal platform when printing onto a wide range of substrates requiring flexible ink with excellent adhesive properties. Productivity is further enhanced with the integrated vacuum table with pin registration that allows easy positioning of materials that are held firmly in place whilst printing. Full bleed printing eliminates the need for unnecessary trimming further reducing the time to dispatch the finished job.

- Capacity for up to 110mm media thickness
- Up to 100m²/h in high productivity 4C configuration
- Integrated vacuum table with pin registration
- Specially designed end guards have sensors for operational safety
- Highly reliable Ricoh print heads
- Energy saving LED lamps
- Newly developed UV ink
- Front access to maximise operator productivity

Media: Rigid materials: Acrylic, PETG, PC, PVC, Glass, Aluminium, Steel, Wood, MDF etc.
Resolution: 635 x 1,800 dpi

EcoLine Flatbed product range

A competitive price without compromised on quality thanks to a Ricoh certified factory process performed in our European green centre, subject to availability.

LARGE FORMAT PRINTING

Get ready for high speed output and maximum uptime. Ricoh's new latex printers are about to transform commercial printing.

Max Print Speed: 4 Colour print speed - 46.7m/h (502.5 sqft/h)
4 Colour + W print speed - 24.9m/h (268.0 sqft/h)
Resolution: 900 - 1200 dpi

Pro™ L5130e

Pro™ L5160e

With our latest latex printers, the RICOH Pro™ L5160e/ L5130e, we've enhanced the positional accuracy of the ink application, and introduced three staggered print heads. The result is outstandingly high productivity. And an auto-wiping mechanism keeps the print nozzles clean, minimising downtime. The new printers use our new, quick-drying latex ink, with superb adhesion, minimal odour, and very low emissions of volatile organic compounds (VOCs).

Best of all, they're amazingly versatile. Besides PVC, tarpaulin and all the substrates you'd expect, they handle a vast range of other print media. All Ricoh printers offer outstanding ease of use, but the RICOH Pro™ L5160e / L5130e go the extra mile. They handle wide format print applications ranging from large-scale outdoor posters and signboards to in store banners, backlit display film and more.

- Print on almost anything
- Durable inks for inside and out
- Less drying time
- Eco-friendly
- Low energy power consumption
- Extended colour Gamut

PRODUCTION PRINTING

Mono and colour cutsheet solutions for the CRD, In Plant, Print-for-Pay and Commercial Print markets.

Pro™ 8300S

B&W Print: 96, 111, 136 PPM
Resolution: 2,400 x 4,800 dpi

The new Ricoh Pro 8300S delivers exactly what your competitive environment demands. And more besides. Our printers offer impressive black and white speeds for high document volume at up to 136ppm. Robust design that stands the test of time with auto recovery to minimise downtime and maximise your turnaround time and large operation panel for simple usability. The brand new range of automated high-end finishing options gives you even greater versatility to capture more business from speciality books to professional bids and manuals.

- New higher finishing capability
- Enhanced productivity
- Better reliability
- Simpler to use
- New shift-sort tray, small finisher and small booklet finisher
- Significant reduction in footprint
- With small booklet finisher, system measures 1,798 mm from end to end

Pro 8310 / Pro 8320 / Pro 8310S / Pro 8320S

The new Ricoh Pro 8310/ 8320/ 8310S/ 8320S are targeted at commercial printers, CRDs and PFP bureaus. The new high-end finishing options which Ricoh has introduced with these models, expand the application capabilities. The Pro 8300S is targeted at offices and schools, where space is often limited. The new compact finishing options which Ricoh has introduced with this model, reduce the system footprint and cost.

- New high-end finisher and high-end booklet finisher
- Saddle stitch capacity increased to 30 sheets / 120 pages
- Capacity of up to 4,400 sheets per unit
- New two-station cover interposer tray
- Air-assisted feed improves paper separation
- Supports continuous feeding of coated paper of up to 350 gsm

B&W Print: 96, 111, 136 PPM
Resolution: 2,400 x 4,800 dpi

Pro™ C5300SL / 5300S / 5310S

The RICOH Pro C5300s/C5310s, built as a right-sized solution, combines high-quality colour, exceptional media handling, powerful performance, and a range of finishing options. With professional-grade speeds and advanced technologies, they deliver a total package.

- Extremely high image quality
- Broad media support
- Easy to use design
- Maximum uptime
- Small footprint

Colour Print: 65, 80 PPM
Resolution: 600 x 600 dpi Scan,
1,200 x 4,800 dpi VCSEL Print

B&W & Colour Print: 85 PPM
Resolution: 2,400 x 4,800 dpi

Pro C7500

Now your print business can deliver so much more value. The RICOH Pro C7500 supports up to seven special colours, including gold and silver. Evolved to meet fast-changing client needs, the Pro C7500 can create exciting new opportunities for your business. Enhancing your operational efficiency, the Pro C7500 partners with you in generating new ways to work. To lever these amazing capabilities, we've also significantly enhanced ease of use. The RICOH Pro C7500: reinvent your business.

Choose RICOH for unwavering productivity. In the fast-paced world of commercial printing, time is money. From brochures to banners and packaging, your clients demand rapid, high quality results. The RICOH Pro C7500 is a game changer. Operating at an impressive speed, and transitioning seamlessly between projects, it delivers real world gains. Setup is a breeze, and with its exceptional mixed media handling capabilities, productive performance is assured.

- Productivity upgrade option increases speed to 95 ppm.
- Graphic Communications Operating System makes setup simple.
- There's no slowing down, full speed is maintained at all media weights, and with consumables replenished on the fly, there's no need to stop.
- Easy jam removal with animated guidance and LED lights
- To maintain productivity, paper and toner can be replenished on the fly
- Tray switching, twin stackers and print scheduling feature support out of hours production

B&W & Colour Print: 85 PPM
Resolution: 2,400 x 4,800 dpi

Pro C9500

Introducing the RICOH Pro C9500 colour press, the answer to your business's most demanding print needs. Driving your business forward, Ricoh's new digital sheetfed press will allow you to say "Yes" to more opportunities, from dynamic marketing collateral and high impact sales materials to the packaging applications that today's market is asking for. Designed to enhance your revenue streams and reduce operational costs, the RICOH Pro C9500 produces digital content that is indistinguishable from offset.

Incorporating advanced imaging technology, it delivers the outstanding image quality, expansive media support and productive performance you need to grow your business. And to support you in migrating work from offset to digital production.

Power up your production credentials. In today's fast paced business world, no one can afford to miss deadlines. That is where the RICOH Pro C9500 comes in. Operating at speeds of up to 135 ppm and boasting a peak volume loading of 2.6 million impressions, it provides the speed and agility your business needs. Its extended paper path and liquid cooling system ensure reliability, while the ability to replenish consumables on the fly and replace key service parts means you can keep going without interruptions.

- The digital press maintains full productivity at all media weights.
- An extended paper path and wide turns ensure reliability.
- Productivity upgrade option increases speed from 115 to 135 ppm.
- Produce up to 9,000 A4 impressions per hour, printing 2-up on A3.
- There is no need to stop, consumables can be replenished on the fly.
- To maintain productivity, paper and toner can be replenished on the fly
- Tray switching, twin stackers and print scheduling feature support out of hours production

CONTINUOUS FEED PRINTER

Small footprint - big productivity.

Pro V20000 Series Pro VC20000 Series

The Pro™ VC 20000 series is Ricoh's latest addition to its fast expanding continuous feed portfolio and opens up a wide range of application in both mono and colour. The V20000 series consists of two dedicated mono devices and an entry level colour machine. Each machine shares the same small footprint yet is capable of printing at up to 150 metres per minute – more than a match for many bigger and more complex devices.

Fast, cost-effective and productive. The top of the range V20100 can print over 20 million pages a month, or 36 million metres per annum, with no reduction in print quality and on a wide range of papers – a real production deadline beater.

Key features

The new Ricoh Pro™ VC20000 is fast, cost-effective and productive. With a top resolution of 600dpi x 600dpi each produce more than 10 million A4 pages with an excellent print quality and on a wide range of papers – a real production deadline beater. With a speed of 75m/min* and print widths of up to 558mm, the Ricoh Pro™ VC20000 really are built for the low, midrange and even high volume production.

Pro VC70000 / Pro VC70000e

Take command of your future with the inkjet solution the industry's been waiting for. Removing the previous barriers to print quality, productivity and cost-effectiveness, the award-winning RICOH Pro VC70000 Continuous Feed Inkjet Printer elevates your business today and provides a scalable, field-upgradable platform to protect your investment for years to come. Finally, a viable alternative to offset printing has arrived, delivering all the benefits of digital printing and powerful data-driven communications without sacrificing the affordable media choices, image integrity and speed of offset. The RICOH Pro VC70000 provides powerful advantages for your business, including:

- New extended gamut inks make it possible to print onto a variety of different types of stocks, including offset coated and uncoated papers, without pre- or post-coating
- Media support for offset coated, IJ coated, IJ treated and uncoated papers from 40 to 250 gsm
- Ricoh's latest generation stainless steel printheads for years of dependable use
- Dynamic drop technology at the image level to render fine details, consistent half-tones and optimized ink usage on high coverage areas
- Production volumes up to 40 million impressions per month
- Repeatable print lengths of up to 54"
- Output speeds up to 492 ft/min
- Advanced drying and cockling correction technologies, which are required when printing on lightweight papers
- RICOH TotalFlow® Print Server R600A Digital Front End (DFE) for powerful job and data processing with support for multiple data streams, access to color management and additional job tools

Pro VC80000

A total digital solution bringing additional business growth today and into the future.

- 1200 x 1200 dpi @ 93 m/m
- 1200 x 600 dpi @ 150 m/m
- 16 to 23.0" (165 to 584mm)
- Logical image up to 22.5"
- 40 to 250 gsm @ 93m
- Opt. Heavy Weight Paper Kit 40 to 250 gsm @ 150m Up to 300 gsm @ 93 m/m

COMMUNICATION SOLUTIONS: INTERACTIVE PANELS

Resolution: Maximum 3,840 x 2,160 (4k)
 Ricoh IWB app: runs at 1080p

D5530

The RICOH Collaboration Board D5530 is an all-in-one collaboration hub. The 4K 55-inch screen gives the team plenty of space to share their ideas, and it uses shadow sensing technology that enables precise document annotation. This whiteboard lets you easily and securely share files, and you can browse the web straight from the display. Sophisticated exterior design black or white up to 30% less heavy than predecessor displays, anti-glare anti-fingerprint coating, slimmer body and thinner frames fit to any type of office.

- One-stop collaboration hub with precise document annotation capabilities
- 4K display bringing high quality and detailed images
- InGlass™ by FlatFrog and Optical Bonding technologies realizing smaller parallax & accurate pen response for a greater writing experience
- Intuitive UI/UX with motion detection to attract people attention and save your steps to start a meeting
- Landscape and Portrait orientation
- Video conference-ready with built-in speakers
- Compatible with Pexip, Skype for Business, Microsoft Teams and Zoom
- Designed for ease of use with a choice between a RICOH or an OS free controller, allowing you to work the way that suits you best
- Includes a variety of connectivity options, including multiple USB ports and Bluetooth connectivity for smart devices
- Dust-resistant function ideal for construction sites and factories
- DICOM SIM projection mode for medical training

Resolution: Maximum 3,840 x 2,160 (4k)
 Ricoh IWB app: runs at 1080p

RICOH A6500 / A7500 / A8600

Interactive Whiteboard

The RICOH A6500/A7500/A8600 4k interactive flat panel displays (IFPDs) are designed to fit the needs of classrooms and corporate meeting and training environments where participants are engaged in interactive learning and collaborative experiences. These three IFPDs feature a built-in Android OS and infrared (IR) touch technology for out-of-the-box whiteboarding, document annotation, multi-media presentations and web browsing. Enable remote collaboration by downloading any Android compatible video conferencing application.

- Front Interface - USB Type C, HDMI, USB 3.0 Type B, USB 3.0 Type A x 2
- Side Interface - RJ45 LAN Port 1&2, USB 3.0 Type B, USB 2.0 Type A, Display Port, HDMI x 2, USB 3.0 Type A x 2

Resolution: Maximum 3,840 x 2,160 (4k)
Ricoh IWB app: runs at 1080p

D6520

The RICOH Collaboration Board D6520 transforms everyday meetings into highly productive working sessions. The 4K 65-inch screen gives you all the space you need to share ideas, and it uses InGlass™ by FlatFrog and Optical Bonding technologies realizing smaller parallax & accurate pen response for a greater writing experience. And you can easily make sure the whole team is on the same page with real-time document sharing and web browsing straight from the whiteboard.

- Compatible with Pexip, Skype for Business, Microsoft Teams and Zoom
- Connection to a wireless presentation device without passing cables
- Intuitive UI/UX with motion detection to attract people attention and save your steps to start a meeting
- Adding RICOH Streamline NX enables secure card-based device access and allows you to email and print anything produced on the whiteboard
- Reflection prevention function, to see the contents without adjusting the lighting.
- Sophisticated exterior design black or white up to 30% less heavy than predecessor displays, anti-glare anti-fingerprint coating, slimmer body and thinner frames fit to any type of office

Resolution: Maximum 3,840 x 2,160 (4k)

D7510

The RICOH Collaboration Board D7510 is a one-stop collaboration powerhouse. The 75-inch screen provides ample space for presenting and sharing ideas across the team. And it uses shadow sensing technology that enables precise document annotation. Now you can browse the web and securely share and mark up files, easily keeping the team aligned whether they're in the room or across the world.

- One-stop collaboration hub with precise document annotation capabilities
- DICOM SIM projection mode for medical training
- Superior touch screen sensitivity thanks to capacitance intelligence (PCAP)
- 4K display bringing high quality and detailed images
- Easy to use with an intuitive UI – just plug in, switch on and connect
- Designed for ease of use with a choice between a RICOH or an OS free controller, allowing you to work the way that suits you best

Resolution: Maximum 3,840 x 2,160 (4k)
Ricoh IWB app: runs at 1080p

D8600

Interactive flat panel displays or IFPDs have been steadily evolving as their functionality developed – but the launch of the D8600 heralds something truly special.

- Sophisticated design and streamlined profile
- High spec, 4K display with shadow sensing for more accurate imaging and multi-touch sensing
- Excellent writing performance via finger or touch pen
- User-friendly interface thanks to Ricoh's IWB applications on standard and smart controllers
- Touch pen & eraser – designed to work with the new generation of touch sensors
- Magnetised pen holder and optional connection box for the IC card reader with USB ports
