SINGLE FUNCTION PRINTERS: **MONO**

From small office to **centralised production environment**, there are **affordable Ricoh solutions** enhancing black and white printing productivity.

Maximum Paper Size:A4
B&W Print:45 PPM
Resolution: 1,200 x 1,200 dpi

P 501 / P 502

To get the most out of your documents and data you need a device that enables efficient, simple and secure document management. A device that meets your business needs, from outstanding print output to seamless connectivity. And for that, you can rely on the Ricoh P 501/P 502 black-and-white printers. With these Value Devices you can print with outstanding reliability, sustainability and productivity.

- Powerful Intel 1.3 GHz processor quickly processes work
- Eliminating bottlenecks, first print is ready in 5 seconds
- Multi-page document sets are produced at 43 ppm
- With WiFi Direct, there is no need to join a network
- Password protect and lock confidential documents
- Platform supports workflow and security solutions

Maximum Paper Size:A4
B&W Print:60 PPM
Resolution: 1,200 x 1,200 dpi

P 800 / P 801

Eliminating bottlenecks, the P 800/P801 delivers its first 1,200 dpi print in just 2.4 seconds. Its advanced Intel-powered controller effortlessly processes complex PCL and PostScript files and facilitates the use of enterprise workflow solutions, such as Streamline NX. Indeed, with Near Field Communication (NFC) a standard feature, secure authentication is as easy as tap and go. And, what is more, the energy efficient printer meets stringent Blue Angel Mark (BAM) environmental, health and safety standards.

- Robust and productive 55 ppm mono A4 printer
- Compact solution requires minimal space
- Advanced controller supports enterprise software
- Lock print and secure tap and go authentication
- 2,600-sheet, 5-tray auto-switching paper supply (option)
- 25k high yield toner and maintenance free until 500k
- Energy efficient printer meets BAM environmental standards

Maximum Paper Size:A3
B&W Print:60 PPM
Resolution: 1,200 x 1,200 dpi

SP 8400DN

When you need a robust, high-performance solution, the Ricoh SP 8400DN is here to transform your workflow. Printing the first page in just 2.2 seconds, this A3 60ppm B & W printer with multiple finishing options is perfect if your daily business does not allow you to wait for your print output.

Experience the difference with the SP 8400DN, our first black and white printer with a Smart Operation Panel, a tablet like 10.1-inch interface that's built to boost your productivity.

- At 60ppm, speed meets reliability in a durable design built for constant use
- Easy to operate using the intuitive 10.1-inch touchscreen Smart Operation Panel
- Powerful controller provides full speed printing of even the most complex jobs
- Versatile and compact with multiple finishing options in a small footprint printer
- Environmentally friendly with lowest TEC value in its class

Experience the difference with the **SP 8400DN**.

Our first **B&W printer** that's built to boost your **productivity**.

MULTIFUNCTION PRINTERS: **MONO**

Networked and standalone **black and white printing** focusing on **speed, user friendliness** and **productivity**.

Maximum Paper Size: A4/A3
B&W Print: 27 PPM
Resolution: 600 x 600 dpi

M 2701

The RICOH M 2701 comes with improved functionalities that make it more productive, convenient to connect, and easier to maintain. Some of the main features include a faster 27 pages per minute (ppm) print speed, 512 MB memory, and a 500-sheet standard paper tray, which enable the devices to handle larger and more complex print jobs in a shorter amount of time.

- Faster printing speeds of up to 27 ppm for single-sided prints
- Maximum 1,600-sheet paper input capacity enables longer uninterrupted printing
- Easily connect and print with AirPrint™ and Mopria support for iOS and Android smart device users
- Devices can be shared wirelessly on any network via wireless LAN option
- Minimal technical support required at device set-up as network card and platen cover are pre-installed

Maximum Paper Size: A4/A3
B&W Print: 27 PPM
Resolution: 600 x 600 dpi

IM 2702

Designed for use in demanding environments, the IM 2702 delivers robust performance with minimal support. Localisation is easy as the MFP supports a variety of languages, including Arabic. And, with pre-set developer and a user replaceable photo conductor unit, it can easily be installed and maintained by local staff. What is more, to ensure a fast return on the initial cost, the MFP's smart energy saving features and high yield toner cartridges reduce running costs.

- Fast 27 ppm print speed
- High capacity ARDF
- A6 to A3 paper formats
- 1600 sheet max capacity

Maximum Paper Size:A4
B&W Print:37 PPM
Resolution: 1,200 x 1,200 dpi

IM 370 / IM 370F

Experience the versatility of the IM 370 and IM 370F devices — each a perfect addition to today’s modern workplace. Ideal for smaller office workspaces or desktop environments, these devices offer space-saving efficiency and low noise levels. Empower your teams to digitize workflows and easily capture, print and share information. Work more efficiently with fast black-and-white print and color scan speeds. Protect your business data and intellectual property. Customize options to match your workflow needs with RICOH Smart Integration technology.

- Print, copy, scan and fax capabilities
- 7" Smart Operation Panel
- 50-Sheet Single Pass Document Feeder
- 500-Sheet Paper Tray (on the IM460FTL, this standard feature is a lock and label enabled paper tray)
- 100-Sheet Bypass Tray with A3 capability
- Automatic duplexing
- 64 GB storage
- 6 GB RAM
- PostScript Emulation
- PDF Direct Print Emulation

Maximum Paper Size:A4
B&W Print:37 PPM
Resolution: 1,200 x 1,200 dpi

IM 460F

Experience the versatility of the IM 460F device — each a perfect addition to today’s modern workplace. Ideal for smaller office workspaces or desktop environments, these devices offer space-saving efficiency and low noise levels. Empower your teams to digitize workflows and easily capture, print and share information. Work more efficiently with fast black-and-white print and colour scan speeds. Protect your business data and intellectual property. Customize options to match your workflow needs with RICOH Smart Integration technology.

- Print, copy, scan and fax capabilities
- 7" Smart Operation Panel
- 50-Sheet Single Pass Document Feeder
- 500-Sheet Paper Tray (on the IM460FTL, this standard feature is a lock and label enabled paper tray)
- 100-Sheet Bypass Tray with A3 capability
- Automatic duplexing
- 64 GB storage
- 6 GB RAM
- PostScript Emulation
- PDF Direct Print Emulation

Maximum Paper Size:A3
B&W Print:25, 30, 35 PPM
Resolution: 1,200 dpi print, 600 dpi copy, 600 dpi scan

IM 2500(A) / IM 3000(A) / IM 3500(A)

The IM 2500/IM 3000/IM 3500 black-and-white multifunction printers are ideal for organizations of all sizes across multiple industries. These powerful A3 systems are designed to effortlessly boost office productivity. Access new applications, features and upgrades whenever you need them. Work your way with a wide range of finishing options ranging from an internal finisher to a booklet finisher. Scan between 120 and 240 impressions per minute in B&W and colour. Prevent your data and printing from being compromised with multi-layered security features that risk-proof document management. These intelligent multifunction devices deliver consistent results whatever your printing or scanning requirements may be.

- Always Current Technology provides everybody with access to applications, the latest features and upgrades
- Ricoh's Smart Integration Platform provides cloud-based apps and document workflow integration across multiple devices
- The intuitive Smart Operation Panel makes using the devices quick and easy and workflows more intuitive
- Ricoh's Smart Device Connector enables touchless operation on the MFP that takes place via a single app which enables you to control all print, copy, scan and fax functions from Android and iOS devices smartly and safely
- The combination of high scanning speeds and a variety of finishing options enables users to effortlessly boost their printing and scanning output

Maximum Paper Size:A3
B&W Print:40, 50, 60 PPM
Resolution: 1,200 dpi print, 600 dpi copy, 600 dpi scan

IM 4000(A) / IM 5000(A) / IM 6000(A)

The IM 4000/IM 5000/IM 6000 black-and-white multifunction printers are ideal for organizations of all sizes across multiple industries. These powerful A3 systems are designed to effortlessly boost office productivity. Access new applications, features and upgrades whenever you need them. Work your way with a wide range of finishing options ranging from an internal finisher to a booklet finisher. Scan between 120 and 240 impressions per minute in B&W and color. Prevent your data and printing from being compromised with multi-layered security features that risk-proof document management. These intelligent multifunction devices deliver consistent results whatever your printing or scanning requirements may be.

- Always Current Technology provides everybody with access to applications, the latest features and upgrades
- Ricoh's Smart Integration Platform provides cloud-based apps and document workflow integration across multiple devices
- The intuitive Smart Operation Panel makes using the devices quick and easy and workflows more intuitive
- Ricoh's Smart Device Connector enables touchless operation on the MFP that takes place via a single app which enables you to control all print, copy, scan and fax functions from Android and iOS devices smartly and safely
- The combination of high scanning speeds and a variety of finishing options enables users to effortlessly boost their printing and scanning output

Maximum Paper Size:A4/A3
B&W Print:70, 80, 90 PPM
Resolution: 1,200 x 1,200 dpi

IM 7000 / IM 8000 / IM 9000

The IM 7000/IM 8000/IM 9000 high-speed multifunctional printers have taken black-and-white printing to a whole new level. Download and install new features, applications and upgrades whenever you need them. Use the Smart Operation Panel to effortlessly customize, manage and add new features. Scan up to 240 impressions per minute in black and white and colour (duplex). Prevent data and printing from being compromised with multi-layered security features. Connect remotely, smartly and safely, from anywhere, at any time. Take advantage of finishing options, including multi-folding, stapling and booklet making.

- Prints up to 70/80/90 ppm, copy, scan, fax (optional)
- 1200 x 1200 dpi max print resolution
- Enhance efficiency with on-demand apps and intelligent support
- Upgrade as you go with dynamic add-on capabilities

SINGLE FUNCTION PRINTERS: COLOUR

Colour printers with **single functional capability**.

Maximum Paper Size:A4
B&W & Colour Print:42 PPM
Resolution: 1,200 x 1,200 dpi

P C600

The P C600 is ideal for mid-size businesses and large corporate workgroups looking for outstanding reliability, sustainability and productivity. This incredibly low price per page device offers dynamic b&w and colour output at up to 1200 x 1200 dpi resolution across a variety of media options. With its fast output speeds of up to 42-ppm, impressive paper handling ability and eco-friendly features, users are ready to impress and deliver important information at a moments notice. Users also benefit from a wide range of security options that will help keep their information protected.

- Compact and quietly efficient, the P C600 can be placed within arms' reach
- Its backlit LCD panel tilts so that essential information is easily viewed
- Eliminating bottlenecks, the first 1200 dpi print is ready in 7 seconds
- With up to 4 paper trays, letterhead paper and labels can be held on line
- Ricoh's Smart Device Connector app connects NFC enabled devices
- Improving access, the printer supports AirPrint and Google Cloud Print
- The printer's long-life drum and low TEC rating reduce waste and cost

MULTIFUNCTION PRINTERS: COLOUR

Networked and standalone devices and **document solutions** for **high quality, cost-conscious** colour printing.

Maximum Paper Size: A4
Print Speed: 32 PPM
Resolution: 1,200 dpi print, 600 dpi copy, 600 dpi scan

IM C320 F

With the IM C320F multifunction printer, you can download the latest features, upgrades, and applications whenever you need them, ensuring your printer remains current and fully equipped to handle your evolving business needs — both today and in the future. The 10.1" Smart Operation Panel offers an intuitive, user-friendly interface that provides seamless interaction across multiple Ricoh devices, allowing you to master one system and apply your knowledge to many. This "Intelligent MFP" is designed to connect to cloud-based solutions and easily integrate with your existing software ecosystem. With eco-conscious features and advanced security protocols, you can maintain your commitment to sustainability while ensuring your data and document integrity are always secure.

- High capacity Single Pass Document Feeder (SPDF) for efficient document handling
- 2,100-sheet, 3-tray auto-switching paper supply (option)
- Super-sized 10.1 inch Smart Operation Panel for easy navigation
- RICOH Always Current Technology ensures continuous feature updates
- Cloud and mobile printing ready for flexible working environments
- Integrated fax capability for streamlined communication
- Enhanced security features to protect sensitive information
- Web help and Remote Connect minimize downtime and service interruptions

Maximum Paper Size: A3
Print Speed: 20 PPM
Resolution: 1,200 dpi print, 600 dpi copy, 600 dpi scan

M C2000

From printing and scanning to email distribution, the MC 2000 will streamline your digital workflows. High resolution colour is delivered at speed, and when larger formats are required, the MC 2000 can print onto A3 paper. The ARDF automates time-consuming processes and using the smart ID Card Copy and ID Card Scan features, it is easy to record critical information. Keeping a lid on business expenditure, the MC 2000 is easily affordable and offers low running costs.

- A3 multifunctional printer meets all user needs
- Hybrid workers can easily connect to the device
- Print, copy and scan to email in full colour
- Colour touch screen display simplifies operation
- ARDF automatically processes double-sided documents
- Smart ID Card Copy and Scan features save time

Maximum Paper Size: A4/A3
Print Speed: 20 - 60 PPM
Resolution: 600 x 600 dpi

Metis MF4 units IM C2010 / IM C6010

Ricoh has intelligently created a range of Office Print solutions that constantly stay ahead of today's workplace requirements, ensuring that our customers' investment is protected and their needs are always met. These new, intelligent devices are based on the principle of scalable intelligence. Through software and the cloud, your MFP can be updated, customised and upgraded remotely, in line with your changing needs. Our solutions are designed to be flexible, scalable and tailorable to the changing circumstances our customers face, whether that's because of developments inside their own organisations or as the outside world moves on. And unlike most other MFP's on the market, Ricoh's intelligent devices mean an investment in today's equipment is also an investment in the future. This e-book will help you make informed choices about the kind of MFP you want, and ultimately unlock freedom in your organisation.

- The easy-to-use 10.1" Smart Operation Panel with touch screen controls has improved responsiveness and large new-look icons
- Settings can be configured to suit each individual user's needs and with easier mobile connectivity, users can print or scan to the office network or cloud from their smart device, with built-in support for NFC, AirPrint* or Mopria
- Easy installation and set up

Maximum Paper Size: A4/A3
Print Speed: 65 - 80 PPM
Resolution: 600 x 600 dpi

IM C6500 / IM C8000

We understand that imaging requirements change over time. The RICOH IM C6500/8000 is designed to support your current and your future business needs. Connected, easy to use and incredibly productive, it effortlessly meets demanding departmental requirements. Stunning high-quality print is delivered at express speed and can be punched, stapled, folded and bound in-line. And, with RICOH Always Current Technology™ now standard, new applications can be installed as your business needs change.

- This department powerhouse will meet a variety of business needs
- Everyday requirements are met in stunning quality at production pace
- High quality brochures and mailing pieces can be produced in-house
- Critical documents can be digitised and uploaded directly to the Cloud
- Mobile workers can interact seamlessly with the intelligent device
- Production work can be folded, stapled, punched and bound in-line New features and applications can be installed as requirements change

Maximum Paper Size: A4
Maximum Print: 32 PPM
Resolution: 600 dpi copy, 600 dpi scan

M C320 FW

The Ricoh M C320FW is a smart A4 colour multifunction printer designed for the environmentally conscious modern office in South Africa. This efficient machine delivers vibrant prints at a swift 32 pages per minute, all within a sleek and space-saving design that integrates seamlessly into any workspace. Notably, its construction prioritizes sustainability, utilizing over 50% post-consumer recycled plastics in its mainframe, significantly reducing its environmental footprint. Furthermore, with an impressively low Typical Electricity Consumption (TEC) value of just 0.33kWh, the M C320FW stands as an exceptionally energy-efficient choice. The Ricoh M C320FW presents an ideal solution, offering a powerful and sustainable way to manage document workflows while minimizing their environmental impact.

- High capacity Single Pass Document Feeder (SPDF) for efficient document handling
- 2,100-sheet, 3-tray auto-switching paper supply (option)
- Super-sized 10.1 inch Smart Operation Panel for easy navigation
- RICOH Always Current Technology ensures continuous feature updates
- Cloud and mobile printing ready for flexible working environments
- Integrated fax capability for streamlined communication
- Enhanced security features to protect sensitive information
- Web help and Remote Connect minimize downtime and service interruptions

Maximum Paper Size: A4
B&W & Colour Print: 37 PPM
Resolution: 1,200 dpi print

P C375

The RICOH P C375 offers robust capabilities in a small, lightweight frame that fits right on your desktop. Print and share information quickly with output speeds up to 32 ppm. Fast warm-up and first-print speeds get you up and going in only 32 seconds.

- Compact, high-performance A4 color printer designed for small to medium businesses
- Print speeds up to 37 pages per minute (ppm) for both color and black & white
- High-quality output with 1,200 x 1,200 dpi print resolution
- Supports a wide range of media types and sizes, including envelopes and thick stock
- Standard 550-sheet input tray with optional additional trays for expanded capacity
- Mobile printing support via AirPrint, Mopria, and Ricoh Smart Device Connector
- Energy-efficient design with low typical electricity consumption (TEC)
- Advanced security features including user authentication and encrypted communication

WIDE FORMAT: MONO

Ricoh presents a complete line-up of productive **wide format, multi-function** document centres that offer scanning, and copier options with **finishing capabilities**.

B&W Print: 6.7 PPM
Resolution: 600 x 600 dpi

MP W6700SP

The ultimate light mono printer for low and mid-range users. Want high-speed output, high resolution and high reliability? Then this new digital multi-function monochrome printer has been created for you. The one device enables you to print, copy and scan in colour. You can also archive to improve document security and storage plus quickly and easily retrieve archived documents.

- High-speed monochrome printing at 6.7 pages/minute (A1 horizontal)
- Scan to Media and Media to print with features integrated in the one machine
- The new USB/SD slot allows data to be directly saved – no PC required
- The smallest footprint, compact in design and operation

Print Speed: 10 PPM
Resolution: 600 x 600 dpi

MP W7100SP

The Ricoh Aficio MP W7100SP allows for fast printing even as you capture, share and save all of your day-to-day hard-copy document processes—co or markups, edits, penciled-in changes and asbuilts— into your ever-changing project workflow. The Ricoh Aficio MP W7100SP Wide Format Digital Imaging Systems are truly high productivity tools that can help you work smarter, collaborate easier, share faster and finish your projects on-time and on-budget.

- Colour LCD touch-panel interface makes walk-up operation easy and intuitive
- Built-in colour scanner captures colour mark ups in-house
- Original output tray holds up to 50 D-size originals for minimal interruptions when making copies
- Minimize system footprint with the embedded colour scan

WIDE FORMAT: COLOUR

B&W Print: 3.8 PPM
Colour Print: 2.1 PPM
Resolution: 600 x 600 dpi

IM CW2200

Designed to meet the needs of today's businesses where working with CAD drawings and other large documents (A1/A0) is key, the RICOH IM CW2200 offers the perfect solution. High quality, precision documents such as site plans, technical drawings and design graphics, are effortlessly scanned and printed at impressive speeds. Ricoh's innovative GEL-Jet™ technology ensures our inks are both UV and water resistant, so your documents not only retain their colour and clarity, but are waterproof when working outdoors too. Taking large format printing to a new level.

- Fast scanning speeds - up to 35.3mm/s for colour and up to 106.7mm/s for mono documents
- Automatic paper roll setting - no need to hand feed the paper
- Impressive continuous printing – print documents up to 33 metres long
- Enhanced stacking capacity - up to 10 original sheets

B&W Print: 3.8 PPM
Colour Print: 2.1 PPM
Resolution: 600 x 600 dpi

IP CW2200

Enhance your productivity with Ricoh's new wide format printer.

Designed to deliver impressive results at high speed, the RICOH IP CW2200 is the latest addition to Ricoh's wide format printer range and offers consistent quality, durability and performance for busy project teams working with technical drawings, design graphics or other A1/A0 documents. Combined with Ricoh's innovative GEL-Jet™ technology, your printed documents not only retain their colour and clarity, thanks to our UV and water-resistant inks, but are waterproof too, so are perfect when working on outdoor projects.

- Easy to use large format printer.
- High monochrome print speeds of up to 3.8ppm/A1
- Automatic paper roll setting - no need to hand feed the paper.
- Impressive continuous printing – print documents up to 33 metres long
- Useful flat top offering workable surface

UV FLATBED PRINTER

Pro TF 6251 / R to R

Up to 116m²/h: Productivity has never been more affordable. The ideal printing solution for media versatility and application potential. Tap into the profitable sign and graphics market by producing products fast and efficiently on substrates up to 11cm thick with the RICOH Pro TF 6251 / R to R UV flatbed printer. Developed by Ricoh, the RICOH Pro TF 6251 / R to R is the ideal solution to boost productivity* and diversify applications beyond traditional signage. Capitalise on emerging markets, including short run packaging, promotional products, and industrial and interior decor. Achieve industry-leading productivity and pursue ambitious growth plans fuelled by high profit potential, low operating costs, superb image quality and exceptional reliability.

- Capacity for up to 110mm media thickness
- Up to 100m²/h in high productivity 4C configuration
- Integrated vacuum table with pin registration
- Specially designed end guards have sensors for operational safety
- Highly reliable Ricoh print heads
- Energy saving LED lamps
- Newly developed UV ink
- Front access to maximise operator productivity
- Devices can be shared wirelessly on any network via wireless LAN option
- Minimal technical support required at device setup as network card and platen cover are preinstalled

Value - added printing: With two different ink sets to choose from you can select the ideal ink type for your application, media and usage needs.

RICOH Pro UV Ink GP120: Superior Color Gamut ink (Graphics)

RICOH Pro UV Ink DG130: Versatile ink for high adhesion and wide Color Gamut ink. Mandatory for Roll2Roll option Gp inks.

Pro™ T7210

The new Ricoh Pro™ T7210 UV flatbed is the ideal platform when printing onto a wide range of substrates requiring flexible ink with excellent adhesive properties. Productivity is further enhanced with the integrated vacuum table with pin registration that allows easy positioning of materials that are held firmly in place whilst printing. Full bleed printing eliminates the need for unnecessary trimming further reducing the time to dispatch the finished job.

- Capacity for up to 110mm media thickness
- Up to 100m²/h in high productivity 4C configuration
- Integrated vacuum table with pin registration
- Specially designed end guards have sensors for operational safety
- Highly reliable Ricoh print heads
- Energy saving LED lamps
- Newly developed UV ink
- Front access to maximise operator productivity

Media: Rigid materials: Acrylic, PETG, PC, PVC, Glass, Aluminium, Steel, Wood, MDF etc.
Resolution: 635 x 1,800 dpi

EcoLine Flatbed product range

A competitive price without compromised on quality thanks to a Ricoh certified factory process performed in our European green centre, subject to availability.

LARGE FORMAT PRINTING

Get ready for **high speed output** and **maximum uptime**. Ricoh's new latex printers are about to transform commercial printing.

Max Print Speed: 4 Colour print speed - 46.7m/h (502.5 sqft/h)
 4 Colour + W print speed - 24.9m/h (268.0 sqft/h)
Resolution: 900 - 1200 dpi

Pro™ L5130e Pro™ L5160e

With our latest latex printers, the RICOH Pro™ L5160e/ L5130e, we've enhanced the positional accuracy of the ink application, and introduced three staggered print heads. The result is outstandingly high productivity. And an auto-wiping mechanism keeps the print nozzles clean, minimising downtime. The new printers use our new, quick-drying latex ink, with superb adhesion, minimal odour, and very low emissions of volatile organic compounds (VOCs).

Best of all, they're amazingly versatile. Besides PVC, tarpaulin and all the substrates you'd expect, they handle a vast range of other print media. All Ricoh printers offer outstanding ease of use, but the RICOH Pro™ L5160e / L5130e go the extra mile. They handle wide format print applications ranging from large-scale outdoor posters and signboards to in store banners, backlit display film and more.

- Print on almost anything
- Durable inks for inside and out
- Less drying time
- Eco-friendly
- Low energy power consumption
- Extended colour Gamut

PRODUCTION PRINTING

Mono and colour cutsheet solutions for the **CRD, In Plant, Print-for-Pay** and **Commercial Print** markets.

Pro™ 8300S

B&W Print: 96, 111, 136 PPM
Resolution: 2,400 x 4,800 dpi

The new Ricoh Pro 8300S delivers exactly what your competitive environment demands. And more besides. Our printers offer impressive black and white speeds for high document volume at up to 136ppm. Robust design that stands the test of time with auto recovery to minimise downtime and maximise your turnaround time and large operation panel for simple usability. The brand new range of automated high-end finishing options gives you even greater versatility to capture more business from speciality books to professional bids and manuals.

- New higher finishing capability
- Enhanced productivity
- Better reliability
- Simpler to use
- New shift-sort tray, small finisher and small booklet finisher
- Significant reduction in footprint
- With small booklet finisher, system measures 1,798 mm from end to end

Pro 8310 / Pro 8320 / Pro 8310S / Pro 8320S

The new Ricoh Pro 8310/ 8320/ 8310S/ 8320S are targeted at commercial printers, CRDs and PFP bureaus. The new high-end finishing options which Ricoh has introduced with these models, expand the application capabilities. The Pro 8300S is targeted at offices and schools, where space is often limited. The new compact finishing options which Ricoh has introduced with this model, reduce the system footprint and cost.

- New high-end finisher and high-end booklet finisher
- Saddle stitch capacity increased to 30 sheets / 120 pages
- Capacity of up to 4,400 sheets per unit
- New two-station cover interposer tray
- Air-assisted feed improves paper separation
- Supports continuous feeding of coated paper of up to 350 gsm

B&W Print: 96, 111, 136 PPM
Resolution: 2,400 x 4,800 dpi

Pro™ C5300SL / 5300S / 5310S

The RICOH Pro C5300s/C5310s, built as a right-sized solution, combines high-quality colour, exceptional media handling, powerful performance, and a range of finishing options. With professional-grade speeds and advanced technologies, they deliver a total package.

- Extremely high image quality
- Broad media support
- Easy to use design
- Maximum uptime
- Small footprint

Colour Print: 65, 80 PPM
Resolution: 600 x 600 dpi Scan,
1,200 x 4,800 dpi VCSEL Print

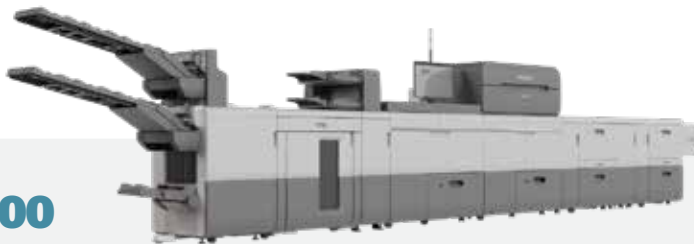

B&W & Colour Print 85 PPM
Resolution: 2,400 x 4,800 dpi

Pro C7500

Now your print business can deliver so much more value. The RICOH Pro C7500 supports up to seven special colours, including gold and silver. Evolved to meet fast-changing client needs, the Pro C7500 can create exciting new opportunities for your business. Enhancing your operational efficiency, the Pro C7500 partners with you in generating new ways to work. To lever these amazing capabilities, we've also significantly enhanced ease of use. The RICOH Pro C7500: reinvent your business.

Choose RICOH for unwavering productivity. In the fast-paced world of commercial printing, time is money. From brochures to banners and packaging, your clients demand rapid, high quality results. The RICOH Pro C7500 is a game changer. Operating at an impressive speed, and transitioning seamlessly between projects, it delivers real world gains. Setup is a breeze, and with its exceptional mixed media handling capabilities, productive performance is assured.

- Productivity upgrade option increases speed to 95 ppm.
- Graphic Communications Operating System makes setup simple.
- There's no slowing down, full speed is maintained at all media weights, and with consumables replenished on the fly, there's no need to stop.
- Easy jam removal with animated guidance and LED lights
- To maintain productivity, paper and toner can be replenished on the fly
- Tray switching, twin stackers and print scheduling feature support out of hours production

B&W & Colour Print 85 PPM
Resolution: 2,400 x 4,800 dpi

Pro C9500

Introducing the RICOH Pro C9500 colour press, the answer to your business's most demanding print needs. Driving your business forward, Ricoh's new digital sheetfed press will allow you to say "Yes" to more opportunities, from dynamic marketing collateral and high impact sales materials to the packaging applications that today's market is asking for. Designed to enhance your revenue streams and reduce operational costs, the RICOH Pro C9500 produces digital content that is indistinguishable from offset incorporating advanced imaging technology, it delivers the outstanding image quality, expansive media support and productive performance you need to grow your business. And to support you in migrating work from offset to digital production.

Power up your production credentials. In today's fast paced business world, no one can afford to miss deadlines. That is where the RICOH Pro C9500 comes in. Operating at speeds of up to 135 ppm and boasting a peak volume loading of 2.6 million impressions, it provides the speed and agility your business needs. Its extended paper path and liquid cooling system ensure reliability, while the ability to replenish consumables on the fly and replace key service parts means you can keep going without interruptions.

- The digital press maintains full productivity at all media weights.
- An extended paper path and wide turns ensure reliability.
- Productivity upgrade option increases speed from 115 to 135 ppm.
- Produce up to 9,000 A4 impressions per hour, printing 2-up on A3.
- There is no need to stop, consumables can be replenished on the fly.
- To maintain productivity, paper and toner can be replenished on the fly
- Tray switching, twin stackers and print scheduling feature support out of hours production

CONTINUOUS FEED PRINTER

Small footprint - **big productivity.**

Pro V20000 Series Pro VC20000 Series

The Pro™ VC 20000 series is Ricoh's latest addition to its fast expanding continuous feed portfolio and opens up a wide range of application in both mono and colour. The V20000 series consists of two dedicated mono devices and an entry level colour machine. Each machine shares the same small footprint yet is capable of printing at up to 150 metres per minute – more than a match for many bigger and more complex devices.

Fast, cost-effective and productive. The top of the range V20100 can print over 20 million pages a month, or 36 million metres per annum, with no reduction in print quality and on a wide range of papers – a real production deadline beater.

Key features

The new Ricoh Pro™ VC20000 is fast, cost-effective and productive. With a top resolution of 600dpi x 600dpi each produce more than 10 million A4 pages with an excellent print quality and on a wide range of papers – a real production deadline beater. With a speed of 75m/min* and print widths of up to 558mm, the Ricoh Pro™ VC20000 really are built for the low, midrange and even high volume production.

Pro Z75

Explore the business benefits of the world's first aqueous pigment B2 automatic perfecting sheet-fed inkjet digital press. Meeting you where you are today — and taking you into the future.

Media flexibility: Produce a wide range of applications with support for up to 24 pt and exceptional quality across uncoated, offset coated and ink jet-treated stocks.

Application diversity: Run multi-up jobs, signature sheets, unique oversized applications and short-run packaging on a B2 sheet size up to 585mm x 735mm.

Improved productivity: Deliver more in less time with speeds up to 4,500 sph and the ability to print double-sided sheets without operator intervention.

Streamlined workflow: Eliminate downtime and finish jobs faster with sheets that are dried instantly and ready for bindery.

Market expansion: Approach new markets with data-driven offerings that increase response rates and lead to higher purchases.

Add a premium touch: Enhance output with specialty finishes and embellishments, and offer a higher level of perceived value with digital technologies that augment print.

Pro VC80000

A total digital solution bringing additional business growth today and into the future.

- 1200 x 1200 dpi @ 93 m/m
- 1200 x 600 dpi @ 150 m/m
- 16 to 23.0" (165 to 584mm)
- Logical image up to 22.5"
- 40 to 250 gsm @ 93m
- Opt. Heavyweight Paper Kit 40 to 250 gsm @ 150m
- Up to 300 gsm @ 93 m/m

COMMUNICATION SOLUTIONS: INTERACTIVE PANELS

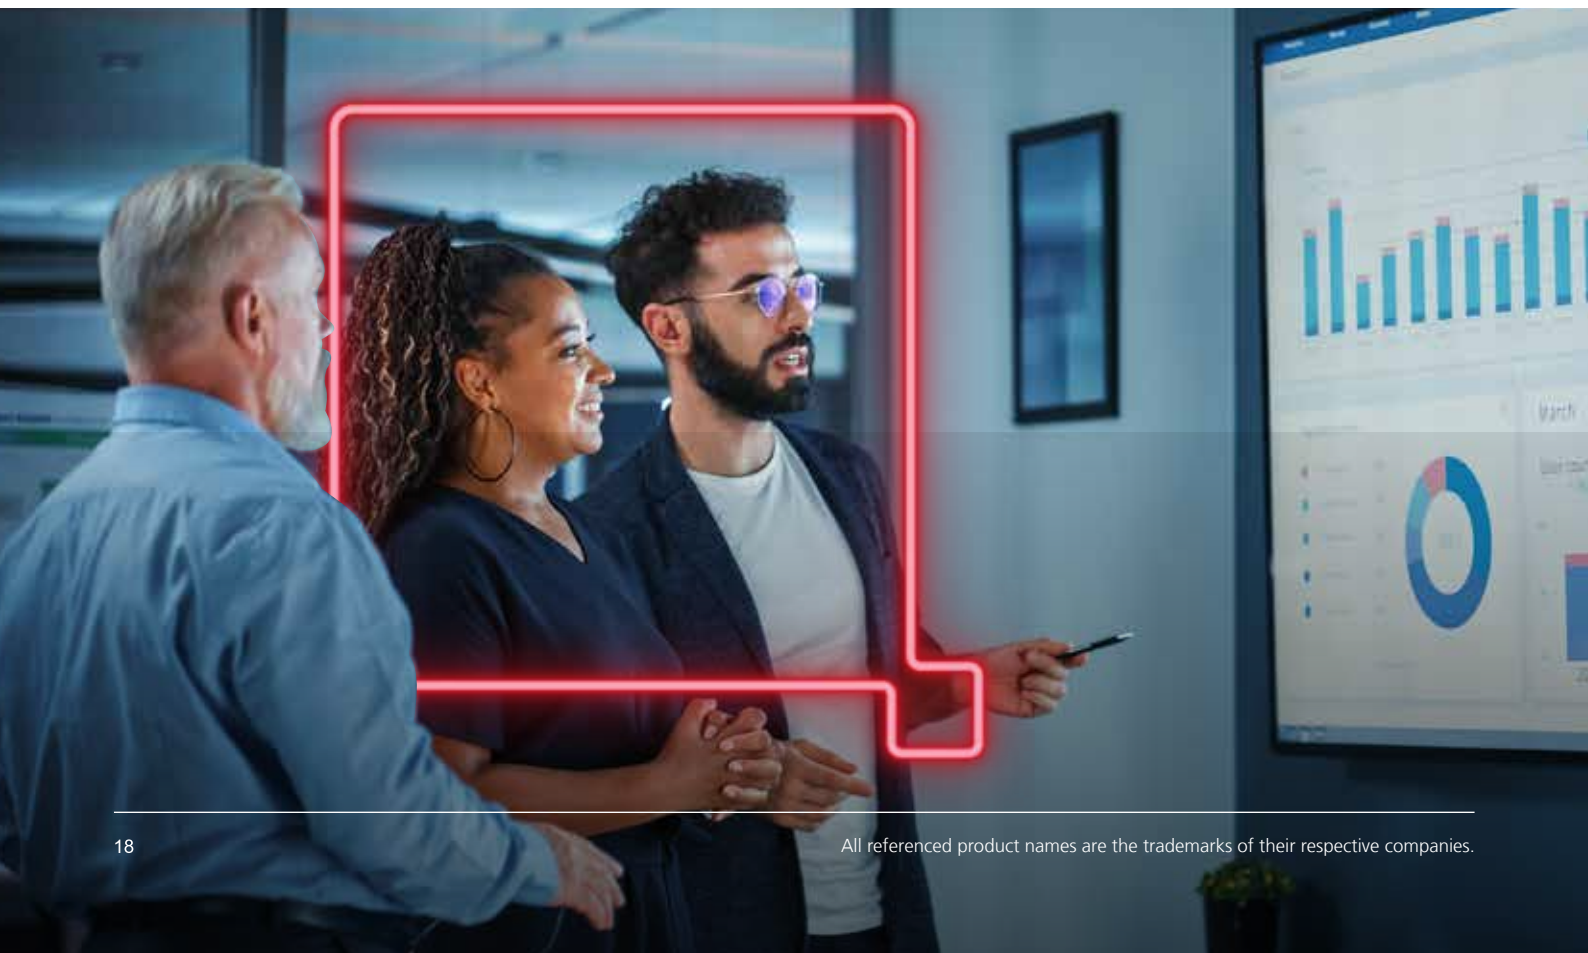

Resolution: Maximum 3,840 x 2,160 (4k)
Ricoh IWB app: runs at 1080p

RICOH A6500 / A7500 / A8600

Interactive Whiteboard

The RICOH A6500/A7500/A8600 4k interactive flat panel displays (IFPDs) are designed to fit the needs of classrooms and corporate meeting and training environments where participants are engaged in interactive learning and collaborative experiences. These three IFPDs feature a built-in Android OS and infrared (IR) touch technology for out-of-the-box whiteboarding, document annotation, multi-media presentations and web browsing. Enable remote collaboration by downloading any Android compatible video conferencing application.

- Front Interface - USB Type C, HDMI, UCB 3.0 Type B, USB 3.0 Type A x 2
- Side Interface - RJ45 LAN Port 1&2, USB 3.0 Type B, USB 2.0 Type A, Display Port, HDMI x 2, USB 3.0 Type A x 2

Smart Locker Solutions

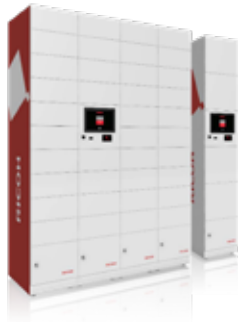

Helping your organisation **adapt and be more efficient.**

RICOH Smart Locker Solutions

Asset Management and IT Inventor Management Lockers
Smart Take and Return Solution

Click & Collect
Smart collection and return

Smart Lockers for all operational needs

Ricoh Smart Lockers use connected technologies to provide secure storage space and manage transactional processes.

From workspace management to verifiable document delivery and device management, our Smart Lockers can help your business run more efficiently.

Safe and secure access

People and processes

Optimising workplaces

Streamlining workflows

Simplifying technology

Key Benefits

- Contactless distribution of all types of items, asset and devices
- 24 / 7 access
- Real-time reporting for audits and alerts
- Full accountability and traceability of devices/assets/items
- Proven ROI in a short time period
- EMEA Cloud – based software with user-friendly dashboard
- Large capacitive Touchscreen with high-res graphics

Technology overview

User Interface with intuitive layout for ease of use

Touchscreen: Large screen using PCAP touch technology as used on Smart Phones

Accessible peripherals: Barcode Scanner / RF reader

- Occupancy sensors and LED's as standard
- Lowest compartment at 350mm height
- Choice of Metal / Perspex doors
- Cloud-based solution hosted in the Europe
- Modern / intuitive user interface
- Real-time data flows and implementations
- Remotely control and manage all aspects of Smart Lockers
- Mobile-optimised for use with tablets / smart phones

DIGITAL WORKSPACE PRINT MANAGEMENT SOLUTIONS

Ricoh Smart Integration (RSI)

Ricoh Smart Integration (RSI) enhances Ricoh devices with cloud connectivity, allowing direct access to services like Google Drive and Dropbox for seamless scanning and printing. It excels in document management by automating tasks like naming, organizing, and indexing, and integrates smoothly with existing systems. RSI also automates workflows, saving time and increasing efficiency. Additionally, it offers mobile access, enabling users to manage documents remotely, ensuring uninterrupted business operations even on the go.

RICOH CloudStream

RICOH CloudStream is print cloud technology that has been designed with your needs in mind. At Ricoh, we know that managing on-premises servers is costly and places a heavy strain on IT teams. Security standards are critical, and budgets often play a part in decisions on whether to invest in cloud technology.

Our innovative solution is cost-effective and does not compromise on quality. Our all-in-one cloud print solution is available for Ricoh and multi-vendor print devices, providing you with a solution that works with your existing print infrastructure.

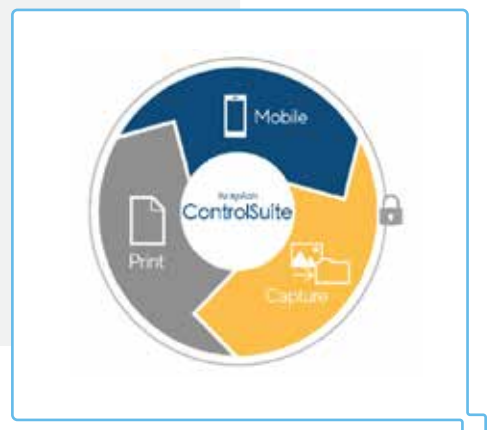

RICOH Streamline NX

RICOH Streamline NX is more than a combination of software products. It is a modular suite that takes a platform solution approach to addressing your document-related process needs. This includes device and driver management, card authentication, chargeback, scanning, mobile and secure printing and extensive reporting. Streamline NX users can access all functions from the multifunction device (MFP) interface, and administrators manage the software from a single admin console. Because Streamline NX is modular, it can grow with you. When you have user-friendly access to the features, functions and information you need, the result is a complete solution that's easier for users and simpler for IT departments to manage fleets and control output.

Tungsten ControlSuite™

Tungsten ControlSuite™ is an on-ramp for your digital transformation initiatives. By augmenting MFDs with intelligent automation capabilities and by connecting to business systems, ControlSuite delivers increased efficiencies and productivity while maximizing document security and ensuring compliance. Work with information across all channels. Transform your data into actionable insights and deliver it directly into your core business applications and processes. Tungsten ControlSuite combines advanced document capture, print and output management, and mobile capabilities to apply security controls, track and monitor compliance policies, and automate document collection, processing, routing and storage tasks.

Tungsten Printix

Tungsten Printix is a cloud-based print management solution designed for organizations transitioning to an all-cloud strategy. It eliminates the need for on-premises print servers by enabling quick and efficient cloud-managed printing. Printix simplifies printer and driver management through a cloud-based portal, reducing IT infrastructure costs and administrative complexities. It integrates seamlessly with Microsoft Azure AD and Google Workspace, supporting Single Sign-On and easy deployment via Microsoft Endpoint Manager. Scalable and automatically updated, Printix streamlines print operations without adding network traffic, ensuring a smooth and efficient cloud-based print environment.

PaperCut MF

PaperCut MF is a comprehensive print management solution designed to help organizations reduce waste, track print usage, and improve security. It offers robust features such as secure print release, user authentication, and detailed reporting, enabling businesses to monitor and control printing costs effectively. Additionally, PaperCut MF integrates seamlessly with various devices and platforms, making it a versatile choice for organizations of all sizes looking to optimize their print environment.

PaperCut Hive

PaperCut Hive is a cutting-edge, cloud-native print management solution tailored for hybrid work environments. It simplifies printing by offering secure, serverless print management with advanced features like contactless printing, print from any device, and detailed usage analytics. PaperCut Hive is designed to reduce IT overhead, enhance document security, and support sustainability initiatives, making it an ideal solution for organizations embracing modern, flexible work practices.

BUSINESS PROCESS MANAGEMENT SOLUTIONS

RSI LogicFlow

RSI LogicFlow is a secure cloud-based platform that simplifies and automates your document workflows. The days of manually scanning and filing physical and digital documents are over. Save hours of precious staff resource with LogicFlow. LogicFlow automatically processes and intelligently files your docs to save you value time in the working day. Whether you input them digitally or physically scan them from home or office. Compatible with Microsoft 365, LogicFlow provides an agile process and seamless access to your docs anytime, anywhere and on any device.

DocuWare

DocuWare is a powerful document management system designed to optimize the handling of documents by ensuring efficiency, accuracy, and collaboration. It captures and imports various documents from multiple sources, then intelligently indexes them for quick retrieval. Centralized storage allows easy access for teams, while workflow automation streamlines approval processes, reducing delays. DocuWare's robust search and retrieval features, combined with enhanced collaboration tools, ensure that the latest documents are always available. Its integration with CRM and ERP systems further streamlines operations, and mobile access enables real-time document management, supporting remote work and improving overall productivity.

Upland OL Connect

Upland OL Connect is a customer communications management (CCM) software that enables businesses to design, create, and distribute personalized, multi-channel communications. It allows users to manage document workflows, automate printing, and deliver digital content via email, web, and mobile. The software is designed to integrate with existing systems, offering high customization and scalability, which makes it suitable for enhancing customer engagement and operational efficiency in various industries, including sales.

PlanetPress[®]
Connect
OL™ Software

Upland OL CaptureOnTheGo

Upland OL CaptureOnTheGo is a mobile data capture and distribution platform designed for field-based teams, particularly in sales and service. It enables users to collect data, fill out forms, capture signatures, and manage documents on the go using a mobile device. The platform facilitates real-time communication between field agents and the central office, streamlining workflow processes and improving data accuracy. CaptureOnTheGo integrates with back-end systems, allowing for seamless data transfer and reporting, which helps sales teams stay productive and responsive while on the field.

Capture
OnTheGo[®]

SigniFlow

SigniFlow transforms your workplace into a highly efficient and secure environment using digital signatures and bank-level encryption to protect and tamper-proof all of your company documents. From the most basic requirements, such as employees having to sign leave applications and their managers approving or rejecting them, to ultra-complex processes that require multiple users to sign highly sensitive and legal documents.

SIGNIFLOW

OQLIS

OQLIS is a comprehensive data analytics platform that empowers businesses with essential tools for visualizing, automating, and analysing data. It simplifies complex data through intuitive visualizations, streamlines processes with automation, and handles large datasets efficiently, providing real-time insights. The platform also offers seamless integration into existing applications, allowing for customized, branded solutions. Additionally, OQLIS uses machine learning and AI to generate accurate forecasts from historical data, enabling informed and strategic decision-making. In short, OQLIS combines powerful analytics and automation into a single, user-friendly platform.

Tungsten TotalAgility®

Tungsten TotalAgility® is a unified intelligent automation (IA) platform that harnesses advanced artificial intelligence (AI) to automate content intensive workflows and unlock real-time business insights. By blending intelligent automation with generative AI, TotalAgility streamlines business processes across a wide range of industries. Whether its financial services, insurance, healthcare, the public sector, or supply chain management, TotalAgility is designed to innovate. It simplifies workflows from customer onboarding and loan processing to claims administration, inventory management and much more.

Tungsten RPA

Tungsten RPA is a market-leading, AI-powered platform that automates business processes using smart software robots that run seven days a week, 24 hours a day. With RPA, enterprises, BPO providers and shared service organizations around the world can achieve exceptional benefits in operational quality, speed and cost. RPA lets you quickly build, deploy and manage automated robots directly on a centralized server that interacts across internal enterprise systems, web sites, web portals, desktop applications and other data sources—without requiring APIs, scripting and complex coding. With the richest set of next-gen RPA capabilities, RPA combines robotic process automation, business process management, process mining and cognitive document automation to empower organizations to automate and digitally transform human- and information-intensive processes.

CYBERSECURITY SOLUTIONS

RICOH RansomCare

RICOH RansomCare powered by BullWall- a unique and proven layer of defence. Over 20 detection sensors assess each file change on monitored shares. If the tell-tale signs of ransomware (illegitimate encryption) are initiated, and files are actively being encrypted on monitored file- and cloud shares, RICOH RansomCare reacts by isolating the compromised device and user to stop the criminal encryption process. The solution is a vital element of your overall defence strategy, providing critical security protection for a small portion of your available security budget.

Ricoh's global penetration testing services

Ricoh's global penetration testing services are designed to replicate both common and sophisticated cyber-attacks. We combine penetration testing with a range of capabilities to assess risk and defend against cyber threats. This includes providing a formal report with detailed recommendations to address vulnerabilities, along with remediation actions tailored to business needs. The outcome is a solution that supports stringent compliance and legal standards across global regulatory regimes.

Shut down ransomware
before it spreads

RISO DUPLICATORS : **MONO**

SF 5030 E

The RISO SF5030 duplicator delivers high-speed, cost-efficient printing with exceptional reliability. Designed for high-volume environments, it combines impressive performance with user-friendly operation. The SF5030 achieves speeds of up to 130 pages per minute (ppm), has a resolution of 300 x 600 dpi, and supports a wide variety of paper sizes, making it ideal for schools, offices, and print shops.

- Ultra-fast print speed of up to 130 ppm for maximum efficiency
- High-resolution output at 300 x 600 dpi for crisp, clear documents
- Accommodates 1000 *2 A4 Sheets in feed tray.
- Eco-friendly and low running cost design with minimal power consumption
- Easy-to-use interface with LCD panel and one-touch master making

Maximum Paper Size: A4
B&W Print: 130 PPM
Resolution: 300 x 600 dpi

SF 5350 E

The RISO SF5350 E is a high-performance digital duplicator engineered for speed, efficiency, and precision. It offers an impressive print speed of up to 150 pages per minute and a sharp resolution of 300 x 600 dpi. With advanced paper handling and eco-friendly features, this model is ideal for institutions and organizations with large-scale printing needs.

- High-speed printing at up to 150 ppm for fast, efficient output
- High-resolution 300 x 600 dpi prints for superior image and text clarity
- Handles paper sizes up to A3 for versatile document production
- Low power consumption and environmentally conscious design
- Enhanced interface with smart operation panel and quick master-making

Maximum Paper Size: A4/A3
B&W Print: 150 PPM
Resolution: 600 x 600 dpi

RISO DUPLICATORS :

SF 9350 E

The RISO SF9350 E takes high-speed duplicating to the next level with advanced features and superior print quality. With a maximum print speed of 150 pages per minute and a true resolution of 600 x 600 dpi, it delivers crisp output and efficient performance. The SF9350 E is built for institutions and businesses needing volume, precision, and reliability—without compromising on environmental consciousness.

- Lightning-fast printing at up to 150 ppm for maximum throughput
- High-definition 600 x 600 dpi resolution for refined image and text quality
- Compatible with a wide range of paper formats, including A3, B4, and A4
- Energy-saving design with low power consumption and eco-mode
- Smart UI panel and automated features for smooth, intuitive operation

Maximum Paper Size: A4/A3
B&W Print: 150 PPM
Resolution: 600 x 600 dpi

MH 9350

The RISO MH9350 is a groundbreaking full-color digital duplicator—RISO's first of its kind. Equipped with dual drums and capable of printing two colors in a single pass, it combines vibrant output with blazing speed up to 150 pages per minute. Ideal for organizations looking to make a visual impact without sacrificing efficiency, the MH9350 brings color duplicating to a whole new level.

- Dual-drum technology enables two-color printing in one fast pass
- Prints up to 150 ppm for high-volume, high-efficiency workflows
- Full-color duplicating with brilliant image reproduction
- Handles a wide range of paper sizes, including A3 and B4
- Intuitive LCD control panel and energy-efficient operation

Maximum Paper Size: A3
Dual Color Print: 150 PPM
Resolution: 600 x 600 dpi
